## One Woman. One Connection. A Multiplied Harvest.

**A farmer does not plant one day and harvest the next.**

The seed from one harvest is used to plant the next year's field. The fruitfulness of the land is not measured in days; rather, its multiplied harvest is measured in years, or lifetimes.

**Iron Rose Sister Ministries (IRSM)** recognizes those truths as a **relational ministry** that invests in the relationships we develop over time—with women, churches, and women's ministries.

When we talk about **"events,"** we are not simply referring to biblical classes with foundational and inspirational teaching. We are also talking about a **catalyst for relationships with God and one another** being formed and strengthened through small groups. We also

provide the opportunity for connection points with women we encounter, with whom we will later foster deeper relationships and build lasting Kingdom partnerships toward eternal growth—individual, congregational, and worldwide.

Take **Kim Solis**, for example (pictured above with Michelle and left teaching a class). They met at an event in Arkansas where Kim was first introduced to IRSM and her interest was piqued. They encountered one another on a few other occasions, then Kim volunteered to write for our weekly blog. Later, Kim was invited to speak at one of our Spanish virtual events, being coached by Michelle regarding the topic and online format.

After participating in our first Ambassadors Equipping Workshop, Kim expressed interest and availability for an international trip. Plans were made, and Kim accompanied Michelle to Cuenca, Quito, and Tabacundo, Ecuador.

Kim is pictured (right) identifying future Ecuadorian Ambassadors that she built solid relationships with in Cuenca and (bottom left) sharing our resources in Tabacundo.

**Kim will return with us to Ecuador in 2027, equipping a next generation of Spanish Ambassadors... one small part of the abundant multiplied harvest God is guiding.**

**We need YOU to partner with us in 2027 and beyond!**
